Professional Summary

Full Stack Developer with hands-on experience building modern web applications using Angular, React.js, FastAPI, Flask, Node.js, Express.js, and REST APIs. Experienced in developing responsive user interfaces, scalable backend services, and integrating APIs. Currently working as a Full Stack Engineer Intern at Veersa Technologies while pursuing a B.Tech in Computer Science & Engineering (AI & ML) at ABES Engineering College.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, HTML, CSS, SCSS, SQL, Java, C

Frameworks/Libraries: Angular 22, React.js, FastAPI, Flask, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, SQLite

Tools: Git, GitHub, VS Code, Postman, Thunder Client, Render, Vercel

Concepts: REST APIs, MVC Architecture, Authentication, Component-Based UI, Responsive Design

Education

Bachelor of Technology in Computer Science & Engineering (AI & ML)

ABES Engineering College, Ghaziabad
6th Semester — CGPA: 8.4

(2023 – Present)

Senior Secondary (Class XII) – CBSE Board

95.2% overall — 97% in PCM

(2022)

Secondary (Class X) – CBSE Board

94.6%

(2020)

Experience

Full Stack Engineer Intern — Veersa Technologies

Jul 2026 – Present

- Developing enterprise web applications using Angular 22 and FastAPI.
- Building responsive and reusable frontend components following modern Angular architecture.
- Integrating RESTful APIs and implementing client-server communication.
- Collaborating with senior developers using Git-based workflows and Agile development practices.
- Writing clean, maintainable, and scalable production-ready code.

Projects

BluePulse – Water Body Monitoring & Analysis Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs

[Live Demo](#) — [Backend API](#) — [Code](#)

- Developed a full-stack application to monitor, track, and analyze water bodies across India.
- Built role-based features including surveyor input, admin management, and dashboards.
- Integrated REST APIs for real-time data exchange between frontend and backend.
- Enabled users to explore water bodies, view survey data, and predict water quality.

Achievements & Problem Solving

- Solved 385+ problems on LeetCode (Rating: 1778) and earned a 2-Star rating on CodeChef.
- Active participant in hackathons and technical events.
- Led a team in the Smart India Hackathon (Internal Round), securing a position among the Top 50 out of 315 participating teams.
